

## Occultation of Mars – May10, 2008

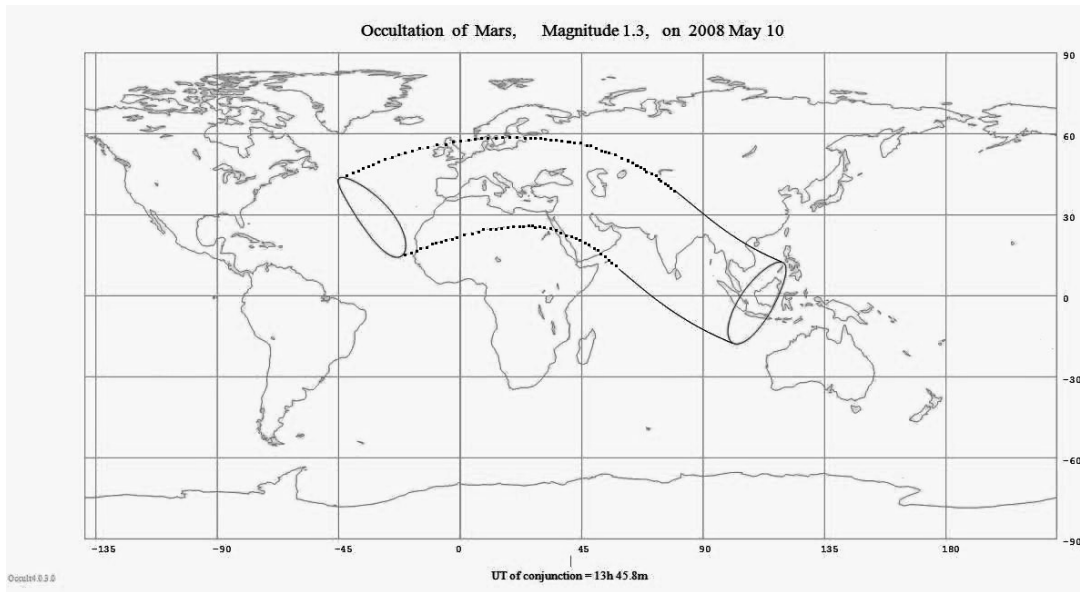

**Watch this beautiful celestial event** – You do not need telescopes or binoculars; but make sure that you can see western horizon.

Timings for Bangalore	Immersion	08:03pm
	Reappearance	09:14pm

Visible from all over India with a slight change in the timings

**Keep watching right from 07:40pm for a dramatic disappearance of Mars at the dark edge of the moon**

The shadow region is marked in the above map. The dotted lines indicate the regions where the event occurs during the day time
