

JAWAHARLAL NEHRU PLANETARIUM

Bangalore Association for Science Education

Science Club discussion on 'Pollution and Its Impact'

Science Club is held every second Sunday of the month. It is mainly targeted at the students studying in classes VIII-XII in order to evoke curiosity and develop scientific temper among them. Interested PUBLIC can also attend the session as it will be at basic level.

Earth is the only know planet in the Universe to support complex life forms. The Industrial revolution which begun in 18th century kick started a process of innovation which enhanced material comforts to human life like never before. However the causality of it has been the very home we live in: the Earth. Pollution today has reached a critical point which threaten the survival of species.

In this session environmental pollution and its dimensions, the scope of its impact, measures taken to combat it at local, national and international level among others shall be discussed.
