JAWAHARLAL NEHRU PLANETARIUM
Bangalore Association for Science Education

A special lecture by
Sri H R Madhusudan
Senior Scientific Officer, Jawaharlal Nehru Planetarium

Date: 9th Nov, 2014 (Sunday) at 5:30 pm
Venue: Jawaharlal Nehru Planetarium
Sri T Chowdaiah Road, High Grounds
Bangalore – 560 001

Topic
“Heavens as a Laboratory”

Abstract:

Scientific Ideas and Theories are put to rigorous tests through well-planned experiments in the laboratories. Some of the ideas are, however, impossible to be verified by carrying out experiments on earth because the phenomena to be studied demand physical conditions that are way beyond what can be generated here. Celestial Bodies such as planets and stars have been used as test-bed of theories and to understand the limits of the fundamental laws of physics, in particular. The talk illustrates at a popular level, how the Cosmos has been used as a laboratory on a grand scale to verify some of the important ideas in physics
